DIRECT FARM-TO-CONSUMER MARKETPLACE

Problem:

- **Multiple Intermediaries** increase supply-chain length and costs.
- **Low Farmer Profits** as intermediaries take a share of the selling price.
- **High Consumer Prices** due to added margins and distribution costs.
- **Unclear Pricing** makes it difficult to know the actual farm-to-market price.
- **Limited Market Access** — Farmers struggle to reach buyers.

Innovative Highlights:

- **Direct Market Access** — Connect farmers directly with buyers.
- **Price Transparency** — Display farmer price, delivery cost and final price.
- **Traceability** — Track produce from farm to consumer.
- **Nearby Farm Discovery** — Show farmers and fresh products available near the consumer
- **Pre-Order Harvest** — Consumers can book crops before they are harvested

Proposed Solution:

- **Digital Marketplace** — Connect farmers directly with consumers.
- **Direct Product Listing** — Farmers list products and prices easily.
- **Easy Online Ordering** — Consumers compare and order products directly.
- **Transparent Pricing** — Show clear product, delivery and final prices.
- **Secure Payment & Delivery** — Simplify payment and doorstep delivery.

Challenges & How We Address Them

- **Farmer Adoption** - Provide a simple and easy-to-use interface.
- **Product Quality** - Enable quality details and produce information to build buyer trust.
- **Delivery Coordination** - Connect farmers with reliable delivery partners.
- **Payment Security** - Use secure digital payment methods for safe transactions.
- **Low Farmer Visibility** - Create **digital farmer profiles** to showcase their products

FEASIBILITY

1. Reliable Technology

Uses proven web technologies for easy development and scalability.

2. Simple & User-Friendly

Easy to use for farmers, consumers, and bulk buyers.

3. Multi-language Support

Regional language support improves accessibility for farmers.

4. Reduced Manual Work

Digital orders, payments, and delivery tracking save time and effort.

RISK MANAGEMENT

1. **Fake listings** → Farmer verification
2. **Delivery delays** → Delivery tracking
3. **Quality complaints** → Ratings & reviews
4. **Payment Issues** → Secure digital payment gateway

VIABILITY

1. Multiple Revenue Streams

Platform fees, subscriptions, delivery charges, and bulk orders.

2. High-Volume Model

Affordable pricing encourages more transactions and sustainable revenue.

3. Low Operating Cost

Local delivery partners help reduce operational expenses.

GROWTH ROADMAP

Phase 1: Local farmer onboarding

Phase 2: Consumer marketplace

Phase 3: Bulk buyers & local delivery

Phase 4: Regional expansion

Phase 5: Smart pricing & demand analytics

IMPACT

AGRI BRIDGE creates a positive and lasting impact on farmers, consumers and society by building a fair, transparent and sustainable agricultural ecosystem.

1. EMPOWERING FARMERS

Direct market access ensures farmers receive fair prices and better income without middlemen.

2. BENEFITING CONSUMERS

Consumers get fresh, quality products at fair prices with full transparency and trust.

3. PROMOTING SUSTAINABILITY

Encourages local farming, reduces food miles, and supports eco-friendly and sustainable agriculture.

4. STRENGTHENING RURAL ECONOMY

Increases rural employment, supports local businesses and contributes to economic growth.

5. BUILDING TRUST & COMMUNITY

Creates a strong connection between farmers and consumers through trust, transparency and long-term relationships.

BENEFITS

AGRI BRIDGE provides benefits to all stakeholders through an easy, efficient, transparent, secure and sustainable platform that promotes direct connections, fair pricing and long-term growth.

1. BETTER PRICES FOR FARMERS

Farmers earn more by selling directly to consumers and avoiding unnecessary commissions.

2. QUALITY PRODUCTS FOR CONSUMERS

Fresh, safe and high-quality products delivered directly from farms to homes.

3. TRANSPARENCY & TRUST

Clear pricing, product details and order tracking ensure complete transparency and trust in every transaction.

4. TIME & COST SAVING

Easy ordering, fast delivery and digital processes save time and reduce overall costs.

5. BUSINESS GROWTH & SCALABILITY

The platform enables **sustainable, scalable growth** with high transaction volume and multiple revenue opportunities..
