github.com/bhuvanesh2711

SUMMARY

Computer Science and Engineering student with a strong interest in Python development, web technologies, backend development, and IoT applications. Hands-on experience with Python, HTML, CSS, JavaScript, Django, MySQL, and Raspberry Pi. Skilled in problem-solving, application development, and learning new technologies.

EDUCATION

B.E. Computer Science and Engineering — Adhiparasakthi Engineering College, Melmaruvathur | 2023–2027 | CGPA: 8.04

HSC — Kingston Matriculation Higher Secondary School, Vandavasi | 2023 | 66%

SSLC — Sendhamizh Matriculation Higher Secondary School, Kodungallur | 2021

TECHNICAL SKILLS

- **Programming:** Python, JavaScript
- **Web:** HTML, CSS
- **Backend:** Django (Basic)
- **Database:** MySQL (Basic)
- **IoT:** Raspberry Pi (Basic)
- **Tools:** GitHub, Visual Studio Code

SOFT SKILLS

- Problem-Solving
- Quick Learning
- Adaptability
- Teamwork&collaboration

PROJECTS

Bank Challan Filling Machine | IoT & Automation Project

- Developing an automated challan filling system using Raspberry Pi, barcode scanning, voice input, and touchscreen interface.
Focused on reducing manual data entry and improving accuracy through hardware-software integration.

MyBusStand | Public Transport Assistance Web Application

- Developing a web application for route search and bus information.
Focused on user-friendly design, frontend development, and efficient access to public transport services.

Agri Bridge | Direct Farmer-to-Consumer Marketplace

- Developed a platform connecting farmers directly with consumers through product listings, pricing, orders, and payments.
- Handled the technical workflow with delivery tracking and a simple, user-friendly interface

CERTIFICATIONS

- Certificate of Participation – IIC Hackathon | AI Skills Passport Green Skills and Artificial Intelligence – Skills4Future Program

CAREER INTERESTS

- Python Development | Full Stack Development | Web Application Development | Data Analytics | Artificial Intelligence | IoT
